<b>Part XV Line 2</b>	<b>Guidelines for Grant Seekers</b>		

Lumina Foundation welcomes LOIs year-round from eligible organizations seeking funds for work that fits within Lumina's mission and guidelines. Generally we review unsolicited inquiries through the end of September. Inquiries submitted after September may be held for consideration until the following year.

Organizations may submit more than one inquiry at any one time.

An LOI should describe the proposed work in three to five pages, using the questions below as guidance:

What are the intended outcomes, and how will the work achieve them? How does the work accelerate progress on Lumina's overarching goal (by 2025, 60 percent of the population in the United States will hold a high-quality postsecondary degree or credential)?

Why is this work important to pursue at this time?

What special qualifications does the organization bring to this effort?

What other organizations are involved, if any? How will they contribute to the work?

How does the proposed work relate to the applicant organization's mission?

What is the geographic scope of the proposed work?

What is the total cost of the effort? What amount do you seek from Lumina Foundation and for what? The Foundation considers only those inquiries that:

Include a completed cover sheet .DOC | 200k, not to exceed one page.

Are submitted on the letterhead of the sponsoring organization or institution.

Applicants are strongly encouraged to submit LOIs electronically. Please send the LOI (on letterhead) and completed cover sheet as attachment to [newinquiry@luminafoundation.org](mailto:newinquiry@luminafoundation.org). Please do not send any additional materials (binders, media, etc.) Applicants are welcome to submit inquiries by mail at the address below but are asked not to submit a letter both electronically and by mail.

If you cannot submit electronically, please send grant inquiries via mail to:

### **The review process**

An internal review panel carefully reviews every LOI that meets. Following the initial review, we will inform applicants within two months of receipt whether the inquiry fits our current priorities and resources. Due to limited resources, we cannot request proposals from all inquiries that meet our criteria. If we decide to request a full proposal, a Program Officer will contact the applicant to request additional information and to provide instructions on applying for a grant. An invitation to submit a

An internal review panel also carefully considers all solicited proposals; occasionally, we invite external experts to review proposals as well. We are diligent in our efforts to respond promptly to proposals. Assuming potential grantees' timely responses to requests for information, the entire review and approval process typically takes approximately six months.

The mission of Lumina Foundation is to expand access and success in education beyond high school, particularly among adults, first-generation college students, low-income students, and students of color. This mission is directed toward a single, overarching Big Goal – to increase the percentage of Americans with high-quality degrees and credentials by the year 2025. This goal is a national priority for several reasons.

Higher education is a prerequisite to success in a knowledge-based society and economy.

The social and economic opportunities facing our country can best be addressed by educating many more people beyond high school. As we attain the goal, we improve the economy, strengthen civic engagement and reduce the costs of crime, poverty and health care and, in short, improve the human condition.

Higher education attainment rates among adults, first-generation college-going students, low-income students and students of color are significantly lower than those of other students. This gap has endured for decades and is now widening. This attainment gap is alarming given the country's demographic trends and economic needs.

The Foundation carries out several direct charitable programs in support of this mission. These include the following:

**Conferences and Convenings.** The Foundation convenes groups of higher education leaders, policy makers, researchers, and others who are actively involved in the effort to expand access and success in higher education, particularly to hard-to-reach populations including adults who originally chose not to pursue higher education after high school, first generation students, low-income students, and students of color. These convenings are focused on bringing together key stakeholders on a specific topic with the objective being both to share information and to develop actionable, measurable next steps. The topics range from ways to overcome barriers to higher education to effective strategies to increase the rate of persistence and graduation among students who enroll in college. The Foundation disseminates the results of these convenings on its website to leverage the knowledge gained for the benefit of others. In 2010 the Foundation held 16 convenings; 10 at the Foundation's offices, 4 off site, but in Indianapolis, and 2 out-of-state. The location of the convening is based on the topic and the participants. The total number of individuals participating in Foundation convenings was 819 with the average convening size being 52 participants. In addition to this convening strategy, the Foundation also actively seeks opportunities to share with external audiences the urgency of the need to increase degree attainment. Superficially, Foundation executives also participate actively in conferences on these subjects in the US and abroad. During 2012 the CEO made more than 40 keynote speeches and the Foundation executives and staff participated in more than 50 conferences to share Lumina's knowledge with other attendees.

Research and Publications. The Foundation conducts substantial research on issues affecting access and success in higher education and makes such research widely available at no charge. For example, in 2010, the Foundation released a seminal report on "A stronger nation through higher education: how and why Americans must achieve a "big goal" for college attainment." This report offers a compelling case for the need to increase dramatically the higher education attainment rates, as a state-by-state analysis of the education level of residents, showing the work that must be done to accomplish the attainment goal of 60%. Based on the research and analysis of "A Stronger Nation", Lumina released policy briefs for each state that addressed the issues and challenges of each state in reaching the 60% attainment goal. In addition to "A Stronger Nation", during 2010, the Foundation released three issues of "Focus" - this is a publication that highlights a significant issue in higher education. Also, in 2010 the Foundation published "Lessons", a publication that highlights what Lumina is learning as it works to increase both access and attainment in post high school education. Finally, the Foundation published in 2010 the 2009 annual report that highlighted the significant work of the previous year. The research and publication work is essential to the Foundation's efforts to build public will around the issues of higher education access and attainment - to move key stakeholders, and the broader public, beyond mere awareness of these issues to action based on the urgency the issues.

Philanthropy. The Foundation is actively engaged in supporting the philanthropic sector in general, as well as higher education. Foundation executives are active with philanthropic organizations in the Indianapolis community, where the Foundation is headquartered, as well as with national and international philanthropic organizations that focus on the need to increase access to higher education, as well as retention and ultimately completion of degree programs. Foundation executives and staff members also serve on the boards of local and national boards.
